

## INDIA DEPARTMENT

**WOLFGANG SANDMANN**  
Master of Public Health  
Patent Attorney | Partner

### | Cooperation with India

India is an important location for production and research, in particular for pharmaceutical products and software development. Intellectual property protection in India has been significantly simplified since India acceded to the PCT in 1998 and now conforms to global standards.

Our India Department can provide you with specialist support in the planning and implementation of your IP strategies for protecting the value added of your products and ideas in India. We have been visiting India regularly over the years, in order to be able to guarantee our clients professional and efficient handling of their IP-related affairs in collaboration with our partners in respected Indian law firms. We work in close cooperation with partner firms and other service providers in Mumbai, Pune, Delhi/Gurgaon, Hyderabad and Bangalore.

Please do not hesitate to contact our India Department in any question relating to Indian patent law, design law or trade mark law.
