Cooperation with China

isarpatent® is a renowned intellectual property law firm offering services in the field of intellectual property. Since its foundation over 70 years ago, the firm has built up extensive expertise.

In close cooperation with our strong Chinese partner network, **isarpatent**® has been supporting well-known Chinese companies, SMEs, start-ups and universities in enforcing their rights in Germany and Europe for many years. In addition, this network, together with our in-house China department, enables us to provide efficient support to domestic clients in handling their IP rights in China. The range of services offered by the China department also includes all translation work.
